About

shining a light on the people that should not be paid to serve with our taxes. There is no accountability for government employees while they hold the rest of us accountable. Qualified Immunity is not a law that Congress passed & President signed. Qualified immunity was created by the Supreme Court in 1967 to prevent the PEOPLE from suing government employees & holding them personally accountable when people were harmed.

My goal is to make OUR GOVERNMENT accountable to us as WE THE PEOPLE are accountable to government.

Prior to official event kick off, about 9:25 AM, I was notified by Stacy McKenzie that she had notified a person that they were trespassed from the property; she needed me to be present to formalize it, as I am manager of the building that we have tenancy of in lieu of the property owner (Selective Real Estate).

I approached and was directed to a man approximately 50+ years, wearing long khaki cargo style shorts; a short-sleeved shirt with a green in color checkered pattern; a blue ball cap with a red brim; wearing body camera equipment (I later learned this man's last name is Snell). (I was not informed of the reason for trespass by AD McKenzie) The man was repeatedly asking staff at the entry point questions about the event in a confrontational tone while filming them. He made statements to library staff including myself that we "...are perverts" for hosting the RainbowFest event. After continued comments, repetition of the same questions and/or statements that were in relation to wanting to know if library staff were aware of specific regulatory statutes, and not asking for assistance related to the operations of library services, I asked the man to leave the day as he was in violation of library conduct policy #3, preventing library staff from conducting their job(s). He refused to leave the premises, at which point I informed him he was trespassing and needed to leave the property, or we would call for support from law enforcement. At that point, Allied Security staff stepped in to mediate the trespass, I left the area.

Shortly thereafter a different man approached me at the entry point. He was wearing a washed-out grey colored t-shirt, long denim blue jeans, a similarly colored grey ball cap; eyeglasses with a black wire frame; grey or white facial hair. He asked some questions about the event, and I answered. After a while he got involved in the "discussion" regarding the above man's trespass. After a few minutes, he further engaged me with repetitious questions about the nature of the incident with other people (not library or event services). I refused to answer his questions per

filming the staff and volunteers. He inserted himself in the conversation between me and RPD officers. Officers gave him verbal instructions multiple times to step back and away from others in the conversation. At no point was he or others told they could not record at the event.

Mr. Ribar was involved in several other specific incidents in which library management was required to intervene. (See associated reports.) I also mediated specific questions from Mr. Ribar when he repeatedly insinuated that we (the library) are discriminating against, seniors/elderly people, homeless people, and other adult categories of people. I did not know at that time that this line of dialog was happening immediately following his attempt to rush the main library entrance and enter the closed library (facility). This was the incident that resulted in injury to a library employee. (Reports that Mr. Ribar attempted to rush the entry in between story time events. This resulted in injury to Library Assistant II, Thanh Nguyen. See accompanying reports.)

Following the end of the first story time performance, Mr. Ribar approached me and demanded to know why children were being held against their will in the library and being "locked in[side]." He proceeded to make statements and questions regarding fire code and regulation. I reiterated to him that I do not interpret law or statute and would not comment on it. About this time, I returned to watch the event entry where I was stationed.

In between the two story time sessions (10:30 & 11:30 AM), I witnessed one of our protestors (Victoria Myer) leave the library following the performance; she had a child with her and attended the story hour. (She was 50+ years; about 5' 4" in height, long grey/salt & pepper colored hair; thin build. She had a grey colored cardigan with her and wore a striped top.) She attempted to double back as I was
